CAREER OBJECTIVE

Enthusiastic AI model developer with solid skills in AI technologies and a willingness to learn. Eager to work on innovative project in a technology driven field that will encourage creativity, quality code, and continued growth.

EXPERIENCE

AI Training Specialist
Randstad India | Chennai, India

- Contributed to AI model development through high-quality data annotation and validation.
- Improved model accuracy by maintaining precise and consistent labeled datasets.
- Worked with annotation tools and quality assurance processes to support machine learning workflows.

EDUCATIONAL QUALIFICATIONS

- Bachelor of Engineering in Computer Science and Engineering at Velalar College of Engineering and Technology with CGPA - **7.4** (2021 – 2025)
- Higher Secondary Certificate at Isha Vidhya Matric Hr. Sec School - **88.16%** **(**2020 – 2021)
- Secondary School Certificate at Isha Vidhya Matric Hr. Sec School - **80%** **(**2018-2019)

SKILLS

- **Languages:** Python(Strong in Oops,Exception handling), HTML, CSS
- **Frameworks & Libraries:** Bootstrap , Numpy & Pandas
- **Databases:** SQL(Strong in Joins , Subquery , Normalization , Pseudo columns)
- **Core CS Concepts:** DSA, OOPs, DBMS
- **Tools & Technologies:** PowerBI , GitHub, Canva , Figma, Photoshop, MSOffice, Excel
- **Soft Skills:** Problem Solving & Critical Thinking, Team Player, Communication.

INTERNSHIPS

- **Frontend Developement - Xenovex Technologies Pvt. Ltd** (June –August 2024)
  Assisted in designing and developing responsive and interactive web applications using HTML, CSS, JavaScript, and Boot Strap.

- **Frontend Development– Codtech It Solutions** (February–April2025)
  Gained Hands-on experience on SPA-based web applications using Agile development practices, focusing on responsive UI, backend integration, and cross- browser testing to ensure performance consistency.

PROJECTS

- **Interactive Quiz Application**

  Built an Interactive Quiz Application using HTML, CSS, and JavaScript.Added dynamic questions, instant feedback, and score calculation features.Designed a responsive and user-friendly UI for smooth interaction.Implemented clean, modular code with efficient question rendering.

- **Generalized Pet Detection in Precision Agriculture**

  Developed an animal detection model using deep learning for precision agriculture.Trained and optimized YOLO/CNN models for real-time field detection.Created a scalable, deployable solution for automated farm monitoring.

- **E-Commerce Web Platform**

  Developed a multi-page E-learning platform using HTML, CSS, and JavaScript.Designed course listing, progress tracking, and video embedding features.Created a clean, responsive UI for smooth learning experience across devices.Implemented interactive elements to enhance user engagement and usability.Ensured structured navigation and optimized page performance.

- **Smart Power Tripping System**

  Built a smart system to detect power overloads and automatically trip circuits.Implemented real-time monitoring using sensors for fault detection.Developed a microcontroller-based control mechanism to enhance electrical safety.

CERTIFICATIONS

- Introduction to Industrial 4.0 and Industrial Internet of Things | NPTEL
- Principles of Management | NPTEL
- Cloud computing core concepts | Linkedin learning
- Introduction to AI | Infosys Springboard
- **Training on Data Annotation** - Detail-oriented Data Annotator with experience in high-quality dataset curation for Machine Learning models. Proven track record in maintaining 98%+ accuracy across Computer Vision and NLP projects, ensuring robust model performance through meticulous labeling and quality assurance.

COURSE

- "Data Analyst" at Qspiders | Coimbatore
